INTRODUCTION

WHY MINTPAD?

Mintpad is a **Multi-Chain** NFT minting platform and launchpad for NFTs. Our dAPP helps NFT projects across all chains to mint out easily on our platform. Users will be able to find new upcoming mints with scores and socials. As well, MintPad will eliminate the fear of NFT Rugs with its feature KYCed mints. This feature will give users and projects alike, the security and trust that is desired throughout the crypto space.

Mintpad will be powered by it's 2500 Mintpass NFT's, and the MintPad token that will be used to accommodate staking and to gain access to MintPad's whitelist minting pool, as well as so much more.

VISION

The MintPad team knows how important NFTs are for the blockchain space to keep evolving. Today's marketplaces offer a more centralized experience compared to MintPads vision. The MintPad vision is to create a fully decentralized cross-chain platform, with revenue sharing rewards to the DAO and MintPass holders alike. MintPad is not just a marketplace for NFTs. MintPad is the one-in-all tool for the entire NFT space across all mainstream blockchains.

GOAL

The MintPad goal is to bring all the necessary tools needed for daily NFT traders, and install them into an all-in-one platform supporting all mainstream blockchains. While also improving the trading quality for NFT trading. MintPad also aims to create multiple sources of revenue for Mintpads DAO and holders, to encourage value and added utility to trading portfolios. MintPad strives to create a SAFU environment through it's auditing and KYC process to allow peace of mind to the users, and added authentication for projects who mint with MintPad.

REFERRAL REWARDS

When a Mintpad holder refers a new NFT drop to mint on the Mintpad platform. Mintpad will pay a referral amount of 1% of the total raised amount of that mint. This will allow holders to possibly be able to earn substantially when referring a project.

For example:

Project raises 1000 ETH.

Mintpad will pay a referral of 10 ETH.

MINT FEE REWARDS

The fee to launch a project on the launchpad is 6%, for this 6% you are not only going to be introduced to the Mintpad community, but you will also get 2500 whitelisted MintPass Holders as an option. The 6% is divided into three parts as follows:

- 3% will be divided to our 2500 MintPass holders and divided
- 3% will go to the team and development of the platform
- 1% will, if referred by a holder, go to that holder, this percentage is taken out of the development and teams fee, and doesn't affect the total fee of 6%.

FEATURED DROPS

Projects with a higher hyped atmosphere and that are already well known in the space will have chances to become FEATURED on our platform. All projects applying for launch on our platform will be vetted by our DAO, and we select FEATURED drops daily. This is not only going to benefit the project itself, but also benefit our MintPass and Token holders, all MintPass holders will automatically receive a guaranteed mint from the featured collection, while Tokens holders will be obliged as follows:

- Staked 500,000 or more Tokens will be obliged to participate in a mint raffle
- Staked 1,000,000 or more Tokens will be obliged to mint 1 NFT from the featured collection
- Staked 5,000,000 or more Tokens will be obliged to mint 2 NFTs from the featured collection
- Staked 10,000,000 or more Tokens will be obliged to mint 3 NFTs from the featured collection

There is also an option for the featured project to give the MintPass/ Tokens holders a special price for their mints, to increase the buying pressure on the mint.

MARKETPLACE

If you mint on our launchpad you are automatically going to be listed on our marketplace. We do not accept collections who were minted outside our platform. Our marketplace is not just another marketplace, it has some additional features which is hard to find on other marketplaces today. The trading fees on our market are 0% which is something that gives your project extra added value, instead we are generating income from advertisements, 50% of the revenue from advertisements will be shared to our DAO and divided by the shares of our holders.

Some other features that will be available on our marketplace are as follows:

- Multi-chain support (SOLANA, ETH, BSC and Polygon from launch)
- Rarity rating from MintPad and external rankings
- Project statistics
- Rarity and FP Sniper built in
- Advanced filtering
- Messaging and VC chats
- And more...

PARNERSHIP PACKAGE

To be extra sure to sell out your mint, we offer a special package that will generate a lot of buying pressure on your collection. Our professional marketing team will take care of the initial marketing and community building. We will also become your project advisors and guide you and your team how to successfully sell out your mint, below are the services included in our **PARTNERSHIP PACKAGE**:

- Launchpad included
- Featured on mint drop calendar and featured coming mints
- Free advertising in our **#Coming Drops** Discord Channel
- AMA with our team in yours and ours Discord Server
- After approved art quality check you will also get Quality Art Badge
- KYC check and Badge included
- 0% after market fees on our marketplace
- Join your twitter spaces and invite our community
- Mint 20 of your NFTs and use for giveaway contests in other hyped communities

All the above is included in our **PARTNERSHIP PACKAGE** after we have approved your project, the fee is paid from the initial mint revenue, and this percentage is agreed from project-to-project basis.

KYC SERVICES

There have been various NFT rugs in the past and more to come, regardless of how the markets are doing. Mintpad introduces KYC badge for mints. The team or dev of the project will be verified using government issued ID card or passport, as well as a recorded video call (DOX) to one of our support team members.

All the data will be kept safe in our database. Then if users from the project claim to be rugged by a projects or developer, our Mintpad team will investigate and release all confidential data to public, and/or authorities if required. Mintpad aims to set the standard for security to its investors and users alike.

QUALITY ART BADGE

To make it easier for both investors and project owners, we are also offering a service we call **QUALITY ART BADGE**. The purpose of this badge is to let a 3rd party guarantee that the art is unique, custom, and not stolen art or under any kind of license not allowing it to be sold to 3rd parties. In the NFT space there have been many copy/paste scams, and this is discouraging for the entire NFT market and is something we at MintPad want to avoid.

TOOLS

Besides the tools available for projects like crowdfunding, possibility to mint with Debit Card and KYC. Mintpad offers investors tools to help them in their NFT journey.

- NFT Portfolio Tracker - easily manage your NFTs (Burn, Bulk transfer, Revoke permissions)
- Debit Card mint - mint new NFTs with your own Debit Card
- Upcoming Mint Calendar - set notifications for new projects
- Newsletter - keep track of the latest developments in the market
- NFT Sniper Bot

DAO STRUCTURE

MintPad is a community-driven platform, where members will be able to stake their MintPasses or \$MINT tokens into our DAO contract to join the DAO.

By staking their MintPasses or \$MINT tokens the members will earn income generated from the platform. The income will be paid out in USDT on weekly basis from following pools:

- 50% of the Mint Fee (MintPass holders only)
- 50% from MintPad's advertisement
- 30% of MintPad's KYC services income
- 50% of MintPad's marketplace income

DAO members will be those who decides and vote for following:

- Featured badge
- Quality art badge
- Banning projects
- Partnerships
- Decide royalties on MintPasses (MintPass holders only)

The DAO members are also those who completely controls the economy received from the platform, these funds solely belong to the DAO, and no longer the platform, and therefore can be used as the DAO seems appropriate.

The voting count per member will be defined by as many NFT's or \$MINT tokens you have staked, if you have 1 NFT staked and one listed on secondary market, you will only have one vote.

The DAO concept is essential and can boost community engagement where every user contributes to the platform and benefits when progress happens within the project.

PAYMENT SERVICES

Users of MintPad will be able to mint by credit/debit card, so don't worry if you don't hold any cryptocurrency. Both VISA and MASTERCARD are supported. After you have minted your NFT you can easily transfer it to your crypto wallet. If a transaction fail, you will automatically be refunded without hassle.

ESCROW

MintPad is offering a secure and easy way to manage OTC trades for NFT users who makes a deal outside the secondary market. Our **ESCROW** solution provides a transparent and secure exchange between the seller and the buyer without the risk of a fraud or scam. The buyer will deposit the payment to MintPad's escrow account, when the money is credited, the seller will be notified to transfer the NFT to the MintPad account, when the buyer withdraws his NFT, the money will be released directly to the seller's wallet.

The fee for MintPads ESCROW service is 1% of the NFT's trading price, half cost compared to our marketplace fees, which are 2%.

MINTCHAIN

INFO COMING SOON

MINTPAD TOKEN

MintPad is the native token of our Coming Chain MintChain and is going to be needed for ultra-fast and super low gas fee minting on or Launchpad. It will also have following functionalities:

- \$MINT staking for DAO treasury
- DAO voting
- Escrow generated funds will buy \$MINT tokens and burn them

Chain: BSC

Taxes: 0%

TOKEN DISTRIBUTION

- **Presale 35% - 350,000,000 Tokens**
- **LP 20% - 200,000,000 Tokens**
- **Team 6% - 60,000,000 Tokens**
- **CEX/DEX listings 10% - 100,000,000 Tokens**
- **Partners 4% - 40,000,000 Tokens**
- **Marketing 15% - 150,000,000 Tokens**
- **Development 10% - 100,000,000 Tokens**

VESTING SCHEDULE

- **Team – locked for 45 days**
- **Partners – locked for 90 days**
- **Marketing – Vested over 6 months**
- **DEX/CEX listings – locked for 30 days**
- **Development – locked for 45 days**
- **LP – locked for 365 days**

ROADMAP

Past until December 2022 (7 months)

- **Idea & Concept**
- **Branding, landing page and Litepaper**
- **Back-end development**
- **Front-end development (beta)**
- **Social and community building**

January to April 2023 (4 months)

- MintPad contract and audit
- Pinksale Fair Launch
- Project Launch
- Whitelist Sale MintPad
- MintPass Mint
- DAO smart contracts and audit
- Marketing Campaign
- New partnerships

May 2023 – September 2023 (5 Months)

- Mint Drops Calendar
- Whitepaper with MintChain included
- NFT Portfolio
- Featured Projects
- LaunchPad
- KYC & Art Badge

October 2023 – October 2024 (12 Months)

- MintChain development
- UI upgrade to V2
- New Features
- Crowdfunding feature
- NFT sniper bot
